Current Release

Version 1.5 – August 2018

Required Integriti Version

Integriti Pro/Infiniti v17.0 or higher

SDK Version

Mobotix MOBOTIX MxPEG ActiveX Control v1.6.3.0

Tested Against

- Mobotix M24 – MX-v4.1.10.28
- Mobotix M26 – MX-v5.0.2.14

New Features

- **Configuration Editor:** Added support for the new Integration configuration editor, available in Integriti v17.0.3 and above. This new editor provides a number of features already seen in other Integriti editors, including the ability to search properties by name and better editors for some properties.
- **Manual:** Added the Mobotix CCTV Manual containing details on configuring the Hikvision plugin, a capabilities guide and a troubleshooting guide.
- **Event Monitoring:** Review Records generated from the integration now specify categories specific to the event type.
This allows for these Review Records to be easily filtered by the Review Category filter in the Review list in Integriti, as well as making triggers easier to configure. Using the new Review Categories it is possible to filter down to a specific type of event type, for example all Motion events, without the need for a text filter.

Feature Updates

- **Integriti Version:** The Mobotix integration now requires an Integriti version of 17 or higher.
- **Event Monitoring:** Improved Review Records generated by the plugin to be more consistent with those generated by other plugins.

Issues Resolved

- **Component:** Issue Description

Known Issues

- **Historical Playback:** Historical playback is unsupported on xx2 series cameras

Past Releases

Version 1.4 – May 2016

Required Integriti Version

Integriti Pro/Infiniti v4.0 or higher

SDK Version

Mobotix MxPEG ActiveX Control v1.6.3.0

Tested Against

- Mobotix M24 – MX-v4.1.10.28

New Features

- **Bi-Directional Audio:** Added support for bi-directional audio streaming alongside the video stream. This allows the audio from a supported camera to be listened to, and audio to be sent to the speakers of supported cameras, directly from the Integriti client.
This can be controlled from the Audio control tab when viewing a stream from a supported camera.
- **Commands:** Added ‘Set Output State’ command to allow the output state of one of the relays on a supported Mobotix camera to be changed from the integration.

Feature Updates

- **Error/Debug Logging:** Improved error and debug messages logged by the Hikvision plugin to be more detailed. This will aid in resolving any issues that occur when using the integration.

Issues Resolved

- **Video Streaming:** Resolved potential ‘Type Mismatch’ error that could prevent viewing video streams in some scenarios.

Known Issues

- **Historical Playback:** Historical playback is unsupported on xx2 series cameras

Version 1.3 – October 2014

Required Integriti Version

Integriti Pro/Infiniti v4.0 or higher

SDK Version

Mobotix MxPEG ActiveX Control v1.6.3.0

Tested Against

- Mobotix M24

Issues Resolved

- **Playback:** Fixed issue where playback would only play the first frame of each event. Now all frames are played.
- **Live Stream:** Improved load time of live video streams.

Known Issues

- **Historical Playback:** Historical playback is unsupported on xx2 series cameras

Version 1.2 – July 2014

Required Integriti Version

Integriti Pro/Infiniti v4.0 or higher

SDK Version

Mobotix MxPEG ActiveX Control v1.6.3.0

Tested Against

- Mobotix M24

Feature Updates

- **Event/Alarm Monitoring:** The Bi-Directional Device Integration Licence is no longer required in order to receive Alarms and IP Notify Events from Mobotix Cameras. This functionality now requires that any Cameras to receive events from are licenced in the Integriti Software.

Version 1.1 – March 2014

Required Integriti Version

Integriti Pro/Infiniti v4.0 or higher

SDK Version

Mobotix MxPEG ActiveX Control v1.6.3.0

Tested Against

- Mobotix M24

Feature Updates

- **IP Notify:** Added support for updating the Camera status upon receiving IP Notify messages.
This can be enabled/disabled by setting the 'Set Summary Text On IP Notify' property of the Camera's attributes in Integriti

Version 1.0 – February 2014

Required Integriti Version

Integriti Pro/Infiniti v4.0 or higher

SDK Version

Mobotix MxPEG ActiveX Control v1.6.3.0

Tested Against

- Mobotix M24

New Features

- **Initial Release**
